

Reassuring Presence Home Care

Safe Transition Home

Extra support for the first days after hospital, rehab, surgery, illness, or a fall.

Who it helps

People returning home after hospital, rehab, surgery, illness, a fall, or a change in condition.

What we can support

Comfort checks, safer routines, meal and hydration support, fall-risk awareness, medication reminder support based on the care plan and applicable rules, family communication, and follow-up planning.

First 24-72 hours checklist

Arrival comfort and safety check	Clear walking paths and fall-risk awareness
Meal and hydration setup	Medication reminder support
Family update after first visit	Follow-up support and next-step planning
